Welcome!

Welcome to our Wetlands Website for Northern Tuscany. The site is divided into two main sections

General Information

This section covers the common historical, cultural, geophysical and naturalistic points of the area's wetlands. There are also 135 information cards on the most important wetland Flora and Fauna.

The Areas

This section describes the seven individual wetlands, all protected Nature Reserves or ANPIL. Each wetland has its own detailed map illustrating its particular historical, environmental and naturalistic features together with tourist information on its activities, special events and how to arrange guided tours.

Happy surfing!
